Koka Pandit Book Of Black Magic In Bangla

August 23, 2016 - Book Review : Koka Pondit by Asal Lojjatun Nesa in a 300 year old book that is written on magic, black magic, prayers, amulets.

=====

===== The other day, on one of the sites on magic, I read that in a book on magic, 300 years ago, a spell was written from corruption, the evil eye, a love spell, a lapel, to bewitch, turn away - from everything that prevents people from living. That this book was written on magic, black magic, prayers, amulets. Is it so? In my opinion, no! Someone made a mistake there - and that's all I can say! I have been looking for this book for a long time, but for some reason it is not for sale anywhere.
